Title:

Comments: I could not be more against and disgusted of the proposal being made. I love going to Ouachita National Forest and taking my pups and little cousins to enjoy the clean flowing creeks. I believe with opening this up to the public will cause huge problems to our wildlife that thrive here, to our waters in Lake Winona, that is mine and lots of other people's source of drinking water. I will do all I can do to fight this. We want to keep our area protected, rural and safe.
