Last name: Lloyd

Organization:

Title:

Comments: My husband and I strongly oppose this project. We continue to be alarmed by the erosion of the moral standing of the USFS. We, the citizens of Montana and the nation, hope to look to you to protect and enhance what is left of our natural world and the habitats and wildlife that depend on that world. Inventoried Roadless Areas, like Nevada Mountain, are to be maintained until possible designation as Wilderness. This massive project, with all the associated disruption and infrastructure required, will have negative impacts on a prime wildlife corridor, the Continental Divide Trail, inventoried Roadless Areas, water quality, and the backdrop of Montana's capital city.

It's time for the USFS to stand up to corporate, monied interests and put the needs and desires of any remaining wild country and the people who love that country first.

Please do the right thing and say NO!
