Comments: shine_berms.2o@icloud.com Please please, listen to us that have lived here all our lives and are in a deep depression finding out about these plans that are NOT presented to Us, the citizens of who've had the privilege to be close to and desperately want to protect these Cottonwood Canyons that are hallowed grounds! None of it makes sense!

Do not chemically kill and burn any living thing!

So worried about our water, plants, animals and now believe we are no safer than California's summers of Fires! Please!
