First name: Jeremy

Last name: Sherman

Organization: Keep the Backcountry Backcountry

Title:

Comments: Regarding the following multi-use restrictions in the Draft EA "dispersed recreation, including backcountry skiing, hiking, and hunting that currently occur in the area, would no longer be permitted during resort operations without authorization (i.e., trail pass)" -

Please consider the requirement of an off trail dedicated skinner/uphill route to be open for the public to use public lands. This will allow the public continued, free use of the glades that were previously used for backcountry skiing prior to WVV expansion, and further increase the terrain diversity for uphill skiing in NH.
