First name: Ross

Last name: Graveley

Organization:

Title:

Comments: I think we need to let this exploration continue so the USA can provide some of it's own resources and not be dependent on other countries who will cut us off in a conflict. We need American jobs with American companies. This is prospected to be a good clean operation that will not create an open pit, and not disturb our local ground, water or wildlife. This is a notably successful mining company with other successful mines.
