Comments: Our family loves to hike, and fish, and hunt. We love to travel out West. It is our family tradition to go out into US FORESTS each year to hunt. We bring our family, we have a wonderful time. Please keep the forests whole, do not clear cut, do not destroy the habitat. We need our forests, for recreation, for physical health; keep our wetlands clean, keep our rivers cool for fish, with plenty of buffers around these critical areas.
