Title:

Comments: Telluride's main economy is the ski area. The Town Of Telluride and Telluride Ski In Golf Company should be allowed to put a hotel and at least 100 free market condominiums on this site. Any deed restrictions should be rental only. Parking should be depressed underground. This is probably the most valuable piece of real estate in all of Ski Country. This parcel should not be full of deed restricted housing and open space! Where are all these people going to work if there's no Hotel/commercial/free market inventory?!? Put the deed restricted housing at Shandoka. Telluride businesses still struggle due to the cyclical nature of owning a business in Ski Country. Please support what the Town of Telluride and the Telluride Ski In Golf Company have been working on for the past decade. Thk Ben F Jackson
