Title:

Comments: Dear Mr. Stewart, Thank you for taking time to consider my comments on the proposed Telluride Ski Resort Improvements. As a 31-year Telluride Ski & Snowboard Instructor, I believe that upgrading lift infrastructure, adding ski terrain variety and improving skier egress will greatly enhance the skier experience. Many guests enjoy the interactive historical timeline of the Heritage Trail. Also, having had many lunches with ski clients over the years, upgrading existing dining facilities is essential! For summer recreation, providing additional beginner mountain biking trails will enhance the family guest experience. And I wholeheartedly support glading based on the 2015 TSR Forest Vegetation Management Plan to promote forest health. As far as future planning, replacing Lift 10 would be a tremendous help to Telluride Ski Resort guests. Although Lift 10 has been a workhorse for many years, the uphill capacity cannot keep up with the demands of the resort during busy times. Also, completing the snowmaking facilities on the Telluride side would be a welcome addition. Thank you again for your time and consideration. Sincerely, Kristen Permakoff
