Comments: To Whom it May Concern,I agree with all proposed improvements being submitted by Telluride Ski Resort concerning the replacement of Lift 7 & 8, Forest Health/Glading projects, Widening of Galloping Goose, Construction of Lift 9 Jaws Skiway, Expansion of High Camp, Addition of Mountain Bike Trail and permanent approval of Heritage Trail ski run.My only comment is for Lift 7 to be replaced with a Detachable Quad. The town of Telluride and TSGare proposing a large parking garage as well as roughly 300-500 additional multi-bedroom housingunits surrounding this lift. Any lift upgrade less than a high speed detachable quad will not beadequate for the increase in density near this location. In addition, the length of this ski lift isconsiderable, making the skier 's experience much more enjoyable with a shortened lift ride from ahigh speed detachable quad.Thank you,--Ryan Vitt
