Comments: We live at greysill condos just across the street. My main concern is really the traffic flow interrupting the pedestrian flow. I'm also a believer that if there's more parking there's more cars ?? we lived in aspen 40 yrs and there's no turning back the traffic now. I do think the lift needs to be moved closer to bottom of runs. It's awkward at the bottom of stumper. I hope we can keep our area charming and am looking forward to some thoughtful development there
