Comments: As a property owner and resident in the Park City School District, I want to make sure the Environmental Impact Statement takes an honest look at how this proposed 42-year mine extension could affect our community. A lot has changed since the original impact plans were written. Home values, inflation, and the cost of running our schools have all gone up, so using outdated information just doesn't paint an accurate picture anymore.

I'm not against mining, and I'm not asking for this project to be denied. I just want the agencies to use current data and fully consider the real impacts on our schools, local taxpayers, and our community before making a decision. If the analysis shows additional mitigation is needed to keep things fair, I hope that will be seriously considered.
