Comments: Sweetwater Lake has long been one of my favorite places to visit with my horse. Over the years, my friends and I have enjoyed riding the beautiful trails, camping with our horses, and taking in the incredible scenery overlooking the lake. It is a truly special place that has provided countless memorable experiences.

We also appreciated the welcoming atmosphere created by the outfitters and enjoyed supporting the restaurant during our visits. These amenities, combined with the trail system, made Sweetwater Lake a destination that many equestrians returned to year after year.

As you consider the future of Sweetwater Lake, I respectfully ask that horseback riding and horse camping remain an important part of the park. Preserving equestrian access will allow future generations to experience this unique landscape in the same way so many of us have enjoyed for years.

Thank you for taking the time to consider the perspectives of those of us who have enjoyed and supported Sweetwater Lake for many years.
