Title:

Comments: Before approving the 42 year extension (Amendment 14) please consider the following:

1. Park City School District 5 has never received any tax-sharing revenues and metal mine trust funds although we bus and educate up to 15% of the mine's student footprint in Stillwater County.
2. Socio-economic baselines are outdated and obsolete.
3. The EIS must require the mine's property tax base be shared with PCSD5.
4. PCSD5 has repeatedly tried to secure mitigation. See transcripts from 9/24/2021 and 11/30/2023 mine board meetings.

I ask that you seriously look at the facts before approving the extension. PCSD5 needs your help.
