Comments: After reading the project documents I've come to the conclusion that no development should be made. Simply leave the lake and surrounding land as it is.

There are multiple lake parks and National Forest lands already available to campers and recreationists in Eagle, Grand and Summit counties. Namely, people can recreate at Granby Lake, Dillion Reservoir, Sylvan Lake, Green Mountain Reservior and others nearby.

Why is development needed at Sweetwater? It is not needed, just keep it primitive so that raptors, wildlife and natural beauty can be maintained in the current state.

Thanks for hearing the opinion of an Eagle County resident.
