Comments: I am in support of this project . A lot of us in this area need good jobs. A lot of people from these environmental groups who have never been to Wyoming are flooding the comments with opposition because they don't want any projects to go forward. They sit in luxury in another state using all the gadgets that are made from rare earth minerals, but don't want anyone else to have them. We have been mining in this country for hundreds of years on federal lands and when they are finished you can't even tell they were there. Please approve this and let's get to work!
