Comments: My family and I have loved cross country skiing in the Chama area for over 40 years. Unfortunately, the presence of snowmobiles disrupts the entire atmosphere, filling it with noise pollution, and foul smelling air. I feel that the area around Spruce hole should be kept limited to people on foot, snow shoes, and skis. It's one of the few open spaces where cross country skiers can go to find peace and quiet in a natural environment.

Thank you for your attention to this matter.
