Title:

Comments: I've lived in Eagle County for 40+ years and I'm a regular user of parks and campgrounds. While there is a need to expand recreation facilities to keep up with a growing population, I am only in favor of Alternative 1, or possibly Alternative 3. The reality is there is no funding for new parks and we really need to first take care of the facilities we have already, which are in deplorable condition, particularly at the USFS level.
