Comments: The Black Hills National Forest matters to me. I love this area and want to see it preserved, not developed. What matters most: this is public lands and I'm tired of the land grab being done by corrupt officials who operate in their own interests and not in the interest of the people they are supposed to be serving. If this proposed action passes through our "gatekeepers" then trust in our government will be further eroded and another sacred, unique, and public space will have been lost. Stop this action now!.
