Title:

Comments: As a homeowner in the Crooked Creek subdivision and someone who walks in the national forest area behind Crooked Creek every day, I can see firsthand how imperative it is to have the fire recovery project move forward as quickly as possible. The forest is an absolute disaster back there and many people are camping in that area. This could lead to a higher risk of fire and a potential accident with dead trees falling on campers. I am in full support of this project. Thank you.
