Comments: Hi,

I want to know what is going to be done to prevent this from happening again. I watched this fire smolder for weeks until it blew into this massive fire. I even spoke to a forest ranger as it was smoldering asking why it wasn't being put out days before it turned into what it was. This was entirely preventable. I want there to be at minimum a request from help to put out to the public to extinguish these fires if the state isn't going to do it themselves.
