Comments: What do you mean you want to sell underutilized land? Does underutilized mean underused by people? You seem to have lost your way in terms of what the Forest Service is all about. I'm guessing the plants and animals that currently inhabit the land don't feel they are underutilizing it. Do you feel like you need monetize everything? Just because Trump can't imagine not plowing under and building over every scrap of land doesn't mean you have to. I object to this plan!
