Comments: Well you dint listen to the people that live in eastern Oregon we have been telling the USFS open Forest only no more road closures . and we have more that enough wilderness .

Govern Victor Atiyeh 1986 said NO more wilderness enough is enough. We need more selective timber sales this good for the forest , this is good it helps keep big wild fires down and helps with a Healthy Forest .

And open roads not block off , then we cant get to the fires . like the Dooley mountain Fire in the summer of 1989 They could not get to the fire because the ROADS where closed so they sent them on a smaller fire on Black mountain and the Dooley mountain fire got to be over 35,000 Acres so quit closing the roads .

Now the Disabled and the Handicap people will not be ably to use the forest because they will have no access , so it will be bad for people to go camping and hunting , fishing berry picking and mushrooming these thing is going to be a bad forest plan It needs to be OPEN FOREST Plan not closed
