Comments: I strongly oppose the Blue Mountains Forest Plan Revision #301397. Over the past few years, I have spent more than a thousand hours hiking within Oregon and as an avid hobby photographer, I have seen the impact that roadless areas and old growth forests have on wildlife. The proposed plan would expose some of the state's most beautiful and wildlife rich areas to fragmentation and could have catastrophic consequences. I believe preserving the current rules and regulations should be a top priority and oppose the proposed revision.
