Comments: Missing or Misdirected Links --

"20240410_GuidetoCommenting.pdf"

On Page 1, there is a misleading reference within the description of CARA, the system Forest Service uses to collect comments from reviewers. It reads:

"You can access CARA at:

<https://cara.fs2c.usda.gov/Public//CommentInput?Project=63933>"

The project ID, 63933 refers to the Midnight Restoration project, which is out of the Methow Valley Ranger District.

The correct project ID for the Wildlife Closure EA is 349472. The CARA link is:

<https://cara.fs2c.usda.gov/Public//CommentInput?Project=349472>

On page 2 of the same document, there is a dead link in the paragraph titled Proposing Alternatives.

The link is ([https://www.ecfr.gov/current/title-40/part-1508#p-1508.1\(z\)](https://www.ecfr.gov/current/title-40/part-1508#p-1508.1(z)))

40 CFR is being revised by the Trump Administration to improve NEPA processes.

The replacing authority is "Update of Procedures for Implementing the National Environmental Policy Act and Assessing the Environmental Effects Abroad of EPA Actions" For reference, see"

<https://www.federalregister.gov/documents/2026/06/25/2026-12862/update-of-procedures-for-implementing-the-national-environmental-policy-act-and-assessing-the>

And yes, this URL does end with "assessing-the"

Reviewer has a question for authors of this EA. Are federal efforts to re-form NEPA a reason to approve this EA as quickly as possible?
