Comments: I am writing as a concerned United States citizen to oppose the proposed Bear Lodge Rare Earth Project. I have concerns around the potential environmental impact of the mine as well as its potential impacts on sites important to local indigenous tribes. These need to be fully assessed and considered. Even if environmental protection measures and cultural resources practices are taken, I fear the project still has the potential to negatively impact the environment and spaces sacred to Indigenous tribes. I believe the best course of action is to not move forward with the project.
