Comments: As a property owner in Brian Head, I support Alternative 2 for the Brian Head Resort expansion. I believe this project would be a positive step for Brian Head and the surrounding Southern Utah community.

The additional lifts and terrain would create more opportunities for winter recreation while also supporting local jobs and tourism. I also appreciate the focus on improving forest health and addressing areas affected by the Brian Head Fire.

I believe the expansion has been thoughtfully planned with input from the Forest Service, local agencies, the resort, and the community. Based on my observations of the DEIS review, I encourage the Forest Service to move forward with Alternative 2.
