Title:

Comments: As a place so sacred, and deeply beloved by not only First Nations, but also by those who come from every corner of the earth to see such a monument it is devastating to think that its beautiful could be destroyed by such greed for profit. This land must be respected, and to respect them is to respect those who come to cherish with this sacred land. No amount of mineral will be worth more than the drought, sickness, and the lose of home for many creatures this "project" will leave behind.
