Comments: I am writing in support of the permanent closure along the I-90 Public Safety/Wildlife Closure. By keeping humans out of this space, we continue to create an environment that is safe and welcoming for the animals, including species who have been gradually returning to the area-- this showcases the success of this safe crossing area. We must continue protection and allow for the wildlife the thrive in this space without disturbance or risk from human presence. Let us not undo the work that has been done and the progress that has been made.
