Comments: To the Forest Service:

I live in Okanogan County where a highway wildlife undercrossing have been successful, and have had attention to the I-90 Snoqualmie Pass wildlife crossing too.

The information I know about Snoqualmie Pass is the I-90 Snoqualmie Pass East Public Safety/Wildlife Closure has been extremely successful for public safety and wildlife connectivity. Thanks for getting that going and please follow through on the proposal to make that permanent. Please recognize that changes may be needed for future management decisions and that ongoing monitoring will be needed.

Thank you.
