Comments: I am from a conservationist family who spent much time in nature as we grow up. I have added a passion for animals to the focus on land preservation of my father.

It has been so exciting to pass the crossings for animals over I90, on my travels across the Cascades to and from Eastern Washington. To learn that animals are able to avoid probable death in crossing roads with fast-moving cars, warms my heart, and gives me hope for the future.

Let's do what we can to keep momentum on this.
