Comments: An open pit mine within 22 of Devil's Tower would not only destroy the natural ecosystem there but would harm a 41 million dollar tourist industry, cause health risks to over 10 thousand residents, trample sacred sites for indigenous ceremony and wreck local economies that thrive off of tourist dollars.

I oppose this and ALL open pit mines in development during the trump administration. There is not enough oversight to plan effectively and within good conscience. Do you people even have one of those?

NO OPEN PIT MINES AT DEVIL'S TOWER!
