Comments: I support the proposed permanent I-90 Snoqualmie Pass East Public Safety/Wildlife Closure.

Wildlife crossings work when animals can safely use them. Wildlife are documented having used the corridor while car/animal collisions has dropped. Keeping people and wildlife separated helps crossings function as intended. Keeping people out of the areas surrounding the enclosure keeps it open for animal use and promotes safety for everyone.

Please finalize the permanent closure and continue monitoring to ensure that the I-90 wildlife crossings function as has been demonstrated into the future.

Thank you.
