Comments: Dear Forest Service,

I support the proposed permanent I-90 Snoqualmie Pass East Public Safety/Wildlife Closure. From what I read, the Snoqualmie Pass wildlife crossing has already proved to be an incredible success, both with respect to wildlife use and connectivity and the near zero wildlife-vehicle collisions on the completed portion of the project.

The importance of keeping people out of the areas immediately surrounding the crossings is obvious. The Forest Service should finalize the proposed closure as a permanent closure.

I look forward to additional wildlife crossings in western Washington and hope the experience learned from the Snoqualmie crossing will inform the planning and construction of these crossings.
