Title:

Comments: I strongly support this proposed project. I am up in the ski area and the surrounding wilderness at least once a week. While I'm passionate about keeping wild spaces wild, the ski area itself is already used regularly by humans and these changes wouldn't materially impact forest or animal habitats in the ski area itself or the surrounding wilderness. watershed areas.

Further Ski Santa Fe has proven to be good stewards of the land and make it easy for the local community to recreate the mountains (I learned to ski as a child because of their subsidized programs for local schools).

These changes seem reasonable and proportionate in order to increase the quality / availability of winter recreation.

Sincerely Owen
