Comments: Mr. Snell, I am a resident of Trout Creek. I want to acknowledge the receipt of the notification, and state that I am fully in favor of the Project. I am aware that there is significant insect damage going on in the area. I have 10+ acres of small timber and have had a few Lodgepole pines that have SUDDENLY turned all brown with the bark coming off and finding indications of insect damage to the cambium layer and the wood under lying it. I have a fair amount of Lodgepole in my little forest and would appreciate the attempt to, in some respects, control the spread of the insects. Thank you for your consideration, Robert Pierson
