Comments: Dear Forest Service, I would like to offer my support for Alternative 2. I am a local skier at Ski Santa Fe and know the absolute need for more modernized snow making. By modernizing the existing systems without increasing Ski Santa Fe's water use, this project is a "win, win". Further, as we know, most of diverted water from the snowpack returns as snowmelt. Snowmaking is a way to better preserve all the benefits from the annual snowmelt. The new storage tank could also be a game changer if needed to fight a wildfire. We need not look beyond the FRIJOLEES fire to appreciate how big the risk is and how valuable on-site water storage can be in an emergency. Please support Alternative 2! We need help now.
