Last name: Walton

Organization:

Title:

Comments: I oppose this Expansion project. My family uses this area for camping , snowmobiling, hunting and recreation activities. This development will restrict our use of this public land. This expansion will impact access to the Twisted Forest a national treasure.

This is simply a bad idea. This expansion is not needed and will impact the public use of this land. This project will only increase the profit of the existing Ski operation and hurt the average people who currently utilize this public owned land.
