Title:

Comments: As an avid skier at Santa Fe for more than 40yrs averaging 20+ days annually, I am in support of Alternative 2. Besides enjoying the Mountain, skiing is an important economic engine for our struggling State. The Environmental Assessment clarifies that this impact is minimal regarding water rights, species and cultural resources. Sustaining outdoor recreation is paramount, but I sincerely hope it does not take 10-20 yrs to complete this project like the Millennium Chair construction quagmire.

Regards,

Kurt
