Comments: This is a huge step backwards for our country.

The USFS is increasingly falling out of favor among Americans. We used to believe this agency protected our public lands for the benefit of all. Now it is selling off to Trump's MAGA and even stoops to lying and bypassing important state laws, such as the State Historic Preservation Organization's protection of historic and archaeological sites. Shameful!!!! What do the tribes have to say about this? What about the fact that the uranium ore will then be trucked through the Four Corners area to a mill near White Mesa, Utah. This ore processing mill is located just a few miles from the Ute Mountain Ute village of White Mesa. How does the Ute tribe feel about this??? The proposed mine is located very near to Mt. Taylor, a sacred mountain to many tribes, including the Navajo tribe.

This is a very bad idea. No concern at all about multiple bad effects from mining uranium, from health concerns to tribal concerns, to environmental concerns, etc.

This is a bad idea!!
