Comments: As a New Mexico resident who values Ski Santa Fe and the important role it plays in our community, I strongly support Alternative 2 of the Ski Santa Fe Snowmaking Modernization Project.

More efficient snowmaking and reliable coverage on Chair 7 and the Sunrise run will help Ski Santa Fe provide safer, more consistent skiing, particularly during low-snow years. I also appreciate that these improvements can be made within existing water rights and annual water-use limits.

Ski Santa Fe is an important part of northern New Mexico-supporting outdoor recreation, tourism, local jobs, and businesses while providing generations of New Mexicans with a great place to enjoy the mountains.

I respectfully encourage the Forest Service to approve Alternative 2.

Thank you for considering my comments.
