Comments: Our cabin was built in 1986. We chose to be near the ski area and snowmobile areas as we enjoy winter sports. Taking away snowmobile access to Dry Lakes would mean we can only snowmobile on roads & the trail through town. This will affect our property values and decrease the usefulness of our cabin.

We're excited for the huge expansion of the resort and what it will bring for the town. Another expansion into traditional snowmobile areas will ruin the area for many of us snowmobilers.

And when can we get a trail that connects us to the Panguitch trails?
