Comments: To Ian Reid, Sisters District Ranger,

After attending the public meeting on September 14 and reading the Akawa Butte Fire Recovery Project proposal, I am in favor of the project. I think the project provides a good balance of salvaging the dead or dying trees and leaving areas for natural recovery. I appreciate the Forest Service making a decision very soon to start commercial salvaging and thinning before the trees lose their value. This needs to happen so it does not fall on the tax payer's expense. Thank you.
