Comments: I support your efforts to reduce post fire risks to communities and resources, restore forest health, and lower the risk of future fires in the area burned by the Akawa Butte fire by prioritizing the following:

- * Salvage dead or dying trees,
- * Mitigate hazardous trees along roadways,
- * Provide opportunities for commercial operators and local communities by providing a source of fuelwood and sawlog,
- * Reforest or replant fire impacted areas with desired native vegetation,
- * Remove hazardous fuels, and
- * Reconstruct or repair roadways damaged by the fire.
