Comments: Dear Sir/Madam

It is really bad. Everything is decaying. Everything is dfark. Nothing can be done. We think Trump will soon release all the nuclear missiles, and then, that will be the end. However, the end has actually already begun. What can we do? Nothing. Nobody cares anymore. Everyone, everywhere we see people, everyone is giving up. The billionaires have won. Only Musk and Thiel rule. What can Oregonians do? Nothing.
