Comments: To the Forest Service,

I am writing as a concerned citizen to oppose the revised plans for the Blue Mountains National Forest area. I am deeply disturbed by the plans to remove environmental protections and regulations and triple logging in the forests. Old growth and mature trees need protection. We need Forest to help offset climate change and climate catastrophe. We need to protect streams and wildlife habitat. Short-term human profit is a horrible reason to remove protections from our public lands. I am simply at a loss to understand how we have reached this point. It's devastating.

Sincerely,
Elena Villa
