Comments: Without an easement to protect the snowmobile and atv trails, this proposal should be denied. My friends and family come up to enjoy Brian Head during all times of the year and some of the best times we have are riding on these trails. There is no reason why the Resort and all parties cannot compromise on having trails with bridges to ensure all who want to enjoy the mountain can in their own ways. Additionally, removing the trails will adversely impact residents and businesses who reply on them for their livelihood.
