Comments: I am in strong opposition to the proposed changes to the Blue Mountain Forest Plan. I do not believe that these revisions are in the best interest of the citizens of Oregon, wildlife or the environment. These revisions would only further allow commercial exploitation of our already quickly dwindling forest reserves. Right now is a time to add more protections, not strip away what little protections we have in place. Furthermore, the roadless rules we currently have in place are for the protection of our wild habitats and rescinding these protections would only place our forests at an increased risk of uncontrollable forest fires, more logging and further degradation of necessary habitat and environment. We have a duty as humans to be stewards of our lands, not to profit off of them. We will soon have no forests for our children to enjoy, for animals to roam, for our sanity as humans. Please do the right thing and do not allow these damaging revisions to be made.
