Title:
Comments: I am the longest resident at the Panguitch Lake area, I have lived here year-round for 34 years and have seen a lot in that time. I was the director over the Terrain Parks for 17 years at Brian Head ski resort, and I've spent countless hours and dedicated time in this area on backcountry, and using up every opportunity I have had to recreate in this area.
I am opposed in every way to shutting down any snowmobile access in this area. Quit Yellowstoning our southern Utah. This range has had some serious setbacks in recent years, and it has drastically affected the visitorship to our area, and the recreating on our mountain. Quit trying to find ways to ruin one of the most beautiful pieces of country between Mexico and Montana.
You should be looking for ways to increase trails, and increase visitorship. State and federal employees in the last 15 years have worked very hard to shut this area down, right down to the snow plowing..we need a complete swap, to the type of people who used to run this area's governments, who had a vision of how to make this area great.
