Comments: To Whom It May Concern..
Being a outdoor recreational enthusiast and member of the community, I strongly suggest that USFS consider Alternate 4 for the following reason. The Dry Lakes Region should be protected for the multi use for all Recreation to include: ATV, UTV and Snowmobile use. This area has had this type of use by all members of the recreational community for decades . We need to conserve this type of access and keep this form of recreational use for the equity of all members of society and future generations.
Respectfully
Thomas Mayes
