Title:
Comments: I am an Oregon snowmobiler from Lake Oswego with plans to ride in the Elkhorn Mountains and the Anthony Lakes and Sumpter areas. I look forward to supporting the local businesses and communities that welcome winter visitors.

I support responsible forest recovery through the Whitman Post-Fire Recovery Project and stand with OSSA and local snowmobile clubs in asking that existing winter access be protected.

Please identify and preserve established snowmobile trails, groomed routes, and connections before approving road closures or changes. Coordinate logging and hauling with local clubs to avoid conflicts with winter riding and grooming. Address hazardous trees along these routes and provide clear maps and reopening timelines for necessary closures.

Forest recovery, safe snowmobiling, and strong local communities should move forward together.

Dan Wakefield
